I am an Officer(6390 2nd Lt AHM Pushpakumara). I was born on 12th December 2022. I studied at Ruwanwella Rajasinghe Central College. During my school days, I worked as a cadet and represented the school volleyball team. I appeared for A/L from Maths stream (Com.Maths, Chemistry, Physics) and got BBB pass. I joined SL Army as a Junior Officer Cadet under Sir John Kotelawala Defense University. Then I completed my Bsc.(Hon's) Computer Science Degree Program at KDU in 2026. I Created so many web projects(KDU 2023, SLIT 2025, KFC 2024, SLMA 2026). during my I did the Special Force. Course after my

Commission as an Officer. I am now serving as an apprentice officer in the SpecialForce of the Sri Lanka Army.

I have good confidence in myself that I have Developing, designing, or creating new applications, ideas, relationships, systems, or products, including artistic contributions skills. I am good at visual computing (Photoshop, Indesign, Coral Draw) part. I think that may be the reason for my successful web design.

How do you deliver a web design to the user? User experience focuses on the needs of the user, his needs and limitations. This is the greatest of all skills as user satisfaction tops the charts when it comes to business. All aspects of web design are extremely important and should not be overlooked, but one should not lose sight of the fact that it is a dynamic and continuous process. For some these things are innate and for others they are acquired. Change is the only constant. Consequently, if you intend to acquire these traits, you should definitely join one of the best colleges in India that offers web design course. Once you join the best web design colleges, you will experience all these skills embedded in your work techniques. In short, be diligent, hardworking and enthusiastic and obstacles will become a thing of the past

If you want my service or Instruction, You can send a Email for me. If you want to meet me follow my address. Every Sunday I'm in my home. If you want to be a web designer.. Please Join with me...

As a web designer, I am responsible for **big-picture decisions, like the menus listed on the site, and smaller details, like which font, color, and graphics to use.** I creates the layout and design of a website. In simple terms, a website designer makes a site look good.

As a advertising Designer, I have to Conduct market and study trends to find out what buyers find intriguing,

Develop new initiatives for advertising campaigns for a business, organization, or advertising agency,

Create campaigns that use unique types, photographs, illustrations, and colours.

As a apps Designer, I have to develop advertising campaigns to entice a targeted audience to buy a particular product or service.
 I research the market and current trends to better understand their audience and create strategic advertising campaigns to help increase a company's sales.
